

## Lions Present Magnifier Unit

A Portable Magnifier unit designed for blind persons was presented at the Mt. Orab Lions Club meeting on October 12. This unit is the latest in technology and was given to R. J. Liming, an eight year old boy who lives near Georgetown. The Ohio Lions Foundation (OLF) provided 90% of the cost of the unit with the other 10% coming from the Mt. Orab Lions Club. Mr. Jim Faust, a member of the Lynchburg Lions Club and OLF Trustee from Lions District 13-J, made the presentation to R. J. and his mother Jennifer Liming.

This unit is a Prodigy Connect 12 model with Distance Camera Kit. It has a touchscreen, a wireless camera, 12- hour portable battery pack, open Android platform, preinstalled Google Docs, Drive, Gmail, Google+, Hangouts, and Chrome plus Smartboard connectivity.

The OLF also provides GPS and/or Ipad units for those who are legally blind and who have financial need.
